

BROMIC
REFRIGERATION

Confidence and control.

Medical Range

A vertical strip on the left side of the page shows a close-up of a glass vial in a tray, likely from a vaccine refrigerator. The image is dark and blue-toned, showing the intricate details of the glass and the tray's structure.

Medical & Vaccine Fridges

Bromic's Medical and Vaccine Fridges, approved by the Pharmacy Guild, offer a safe and dependable storage solution for temperature-sensitive stock, including vaccines, probiotics, and medications.

Medical & Vaccine Fridges + Accessory

Our Medical Fridges feature a built-in alarm system to prevent accidental exposure of your sensitive stock to warm temperatures. With consistent cooling performance, our fridges guarantee peace of mind temperature control and compliance with regulatory standards.

The min/max temperature recording feature allows you to track temperature fluctuations, providing valuable data for regulatory compliance and quality assurance

The alarm system ensures items are not accidentally overexposed to cold or warm temperatures, giving you peace of mind and protecting the integrity of your vaccines

With the integrated lock, you can keep your vaccines secure, preventing unauthorised access

The fan-forced cooling system ensures even distribution of cool air throughout the unit, maintaining consistent temperature levels

This fridge uses energy efficient R600a natural refrigerant, helping you save on energy costs while maintaining optimal temperature conditions for your vaccines

The internal LED light makes it easy to locate and identify your vaccines, even in dimly lit environments

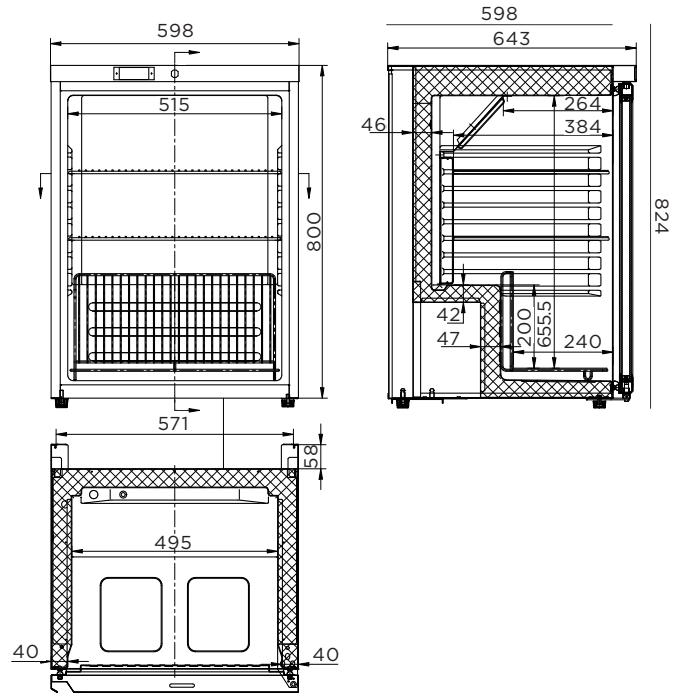

Adjustable shelves make it a breeze to position and organise your vaccines

The BMS dry contact point allows for seamless integration with your monitoring system, making it easier to maintain precise control over your vaccines temperature

Rollers for smooth movement and adjustable legs for leveling make it a breeze to position this medical fridge exactly where you need it

This fridge is Pharmacy Guild-approved, meeting industry standards and regulations, giving you confidence in its quality and suitability for medical use

Medical / Vaccine Fridge

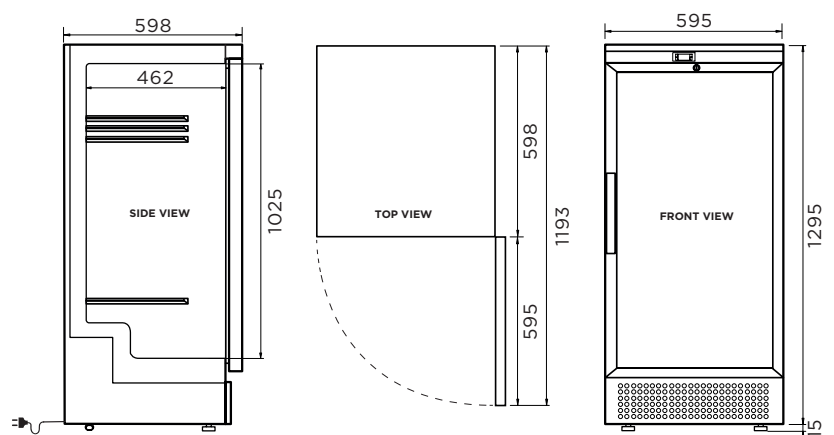

MED0140GD-NR

Part No.	Volume	Weight
3736257	145L	40kg

	External (mm)	Internal (mm)	Packaged (mm)
Width	595	491	650
Depth	643	510	650
Height	824	687	885

- Temperature range: +2°C to +8°C
- Max ambient temp: 32°C
- 4 shelf tiers including base
- Min/max temperature recording
- Integrated lock
- Built-in audible and visual alarm system
- Digital temperature controller

5 YEAR EXTRA CARE WARRANTY
